## About Me

Frontend & Mobile Developer with experience in building interactive, responsive web and mobile applications.
Specialized in React, Redux, and React Native, creating intuitive user interfaces, integrating external APIs, and delivering high-quality, scalable code. Passionate about modern technologies, user experience, and continuous learning.

## Core Skills

**Frontend:** HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Redux Toolkit
**Mobile Development:** React Native (iOS & Android), Expo, native module integration
**Styling & Animations:** SASS, SCSS, LESS, advanced CSS animations, responsive design
**Data & Backend:** Axios, Firebase (Auth, Firestore, Hosting), REST API integration, Golang (beginner)
**Build Tools & Version Control:** Webpack, Gulp, Git, GitHub
**UI/UX & Design:** Figma, Gimp, Photoshop
**Other:** CI/CD basics, accessibility (a11y), performance optimization

## Experience

**Mentor – HTML Academy** (Aug 2023 – Present | Remote)
- Mentored students in HTML, CSS, JavaScript, and React fundamentals.
- Taught semantic HTML, accessibility best practices, and responsive design.
- Provided code reviews, helped troubleshoot issues, and guided students on project architecture.

**Lead React Native Developer – Unifier App | Personal Project** (Feb 2025 – Present)
- Leading development of **Unifier**, a personal project created with friends for **group sports activities**.
- Building the mobile app with **React Native** and **Expo** as the main developer.
- Implemented user authentication, real-time event scheduling, and push notifications using Firebase.
- Responsible for app architecture, state management, and ensuring smooth cross-platform performance.

## Education

**Frontend Developer Program – Hexlet**: HTML, CSS, JavaScript, React.js, Redux
**Certifications:**
- HTML & CSS. Professional Website Coding
- HTML & CSS. Adaptive Website Coding
- React. Development of Complex Client Applications

## Portfolio
